

# OITS Industrial Services W.L.L. Company Profile

## **PROFILE & OUTLINE**

OITS Industrial Services W.L.L., Kingdom of Bahrain, established to cater specialized engineering products and offer valuable technical consultancy to the region's industries. OITS are supported by International Affiliates that proffer quality product identification and MRO/OEM product replacement.

***“We are specialized in providing engineering solutions and services for industrial compressors, Pumps, Turbines, boilers, furnaces, pipelines, sealing solutions, civil, waste water management, and prominently Oil & Gas Solutions.”***

**Chairman & Managing Director  
Younis J. Ashoor**

## **OUR MISSION**

Our mission is to be established as the leading Middle East regional provider of specialized industrial products, expert services and engineering solutions in the field of Oil & Gas, Petrochemicals, Fertilizers, Power plants, Desalination Plants and Waste Water Plants. We cultivate a corporate philosophy based on years of experience; where our clients and their requirements are the focal of our operations.

## **OUR VISION**

With Over 35 years of experience in the Industry, we have established operations in the Kingdom of Bahrain and The State of Qatar. We aim to continue to provide engineering solutions to the region and becoming the - Industry's first choice – for specialized industrial products and solutions throughout the GCC.

## **Our Core Values**

Our corporate strategy is to build on foundations of trust and high standards of integrity, whilst seeking challenges and opportunities through new ideas and ever-growing aspirations to succeed

## **OUR EXPERIENCE, OUR COMPETITIVE EDGE**

### **A HISTORY RICH WITH EXPERIENCE AND KNOWLEDGE**

At the core of this establishment is the founder and Managing Director, Mr. Younis J. Ashoor, a specialist in the field of Machinery Engineering, a Mechanical Engineer from the University of Leeds, United Kingdom. Ashoor worked at the Bahrain Petroleum Company (Bapco) and the Oil Industry in the region and abroad for 35 years. His diverse knowledge and know-how in comprehending diagnostics has proven invaluable and hence enables Alomda Technical Company to incontestably provide unparalleled services to the Oil & Gas Industry.

This knowledge, international exposure and experience in the industry, together with Ashoor's entrepreneur skills inherited from a history of family businesses has enabled OITS Industrial Services W.L.L. to progress while streamlining operations, standardizing methodologies, and innovating; marking the birth of a new corporate culture in the region.

**OITS & CO.**

## **OUR INTERNATIONAL AFFILIATES / COLLABORATION**

<b>BRANDS</b>	<b>ORIGIN</b>	<b>PRODUCTS</b>
TIMKEN	USA	BEARINGS & RELATED PRODUCTS
PERONI POMPE	ITALY	API 674, API 675 PUMPS
SABI POMPE	ITALY	PUMPS
WEG	BRAZIL	MOTORS
WATTDRIIVE	AUSTRIA	GEARED MOTORS
ASCO FILTRI	ITALY	PROCESS FILTRATION SYSTEMS AND FILTERS
CELADA	ITALY	MACHINE TOOLS
HOMA	GERMANY	SUBMERSIBLE PUMPS
RUHURPUMPEN	GERMANY	API 610, ANSI, HIS, FIRE PUMPS

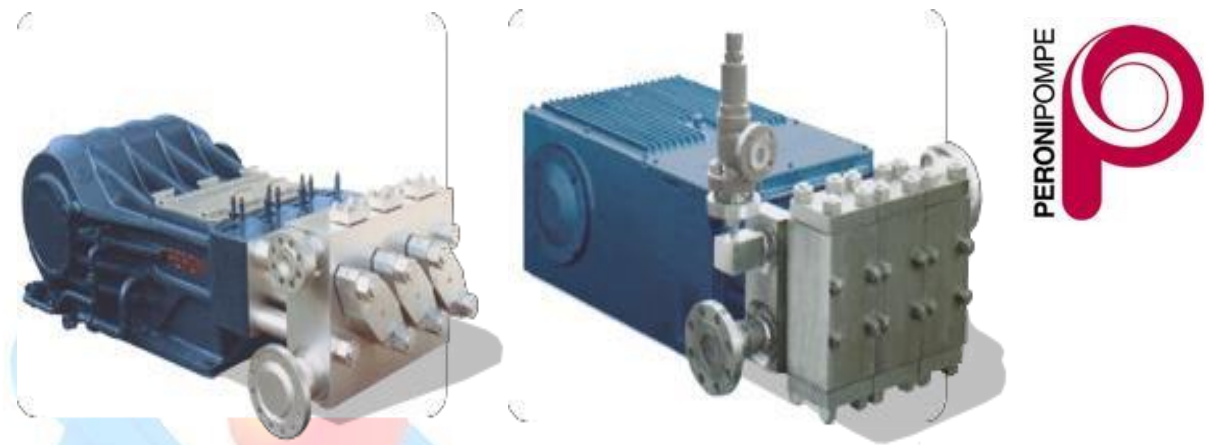

1. **TIMKEN®**, **USA** is the leading brand for engineering, manufacturing and marketing of mechanical components and high-performance steel. Their Products & Services Include:

- Bearing Products & Bearing Accessories
- Alloy Steel & Steel Components
- Power Transmission Components & Systems
- Engineered Surfaces & Coating
- Lubrications Tools, Systems & Components
- Seals & O-Rings
- Motion Control Systems
- Remanufacture & Repair

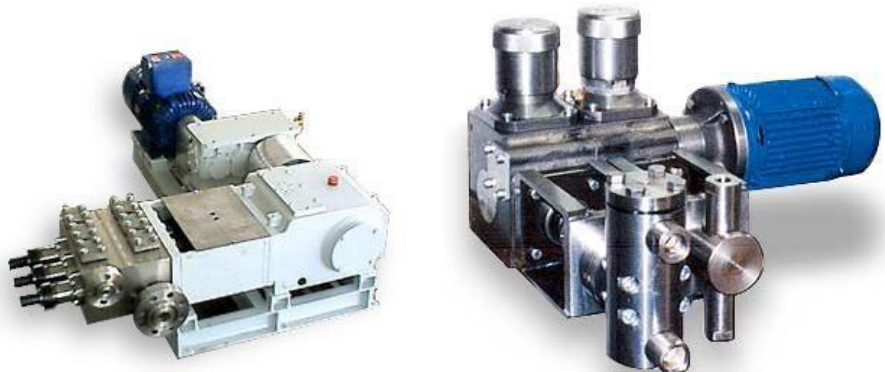

**TIMKEN®**  
**Authorized Distributor**

2. **PERONI POMPE, ITALY** Peroni manufactures a complete range of triplex, quintuplex and septuplex reciprocating power pumps, manufactured according to API674 standards, with power up to 2200kw and pressure up to 1500 bar. Moreover Peroni produces plunger and diaphragm metering pumps, according to API 675 Standards, power or gas driven, with operating pressures up to 900 bars.

3. **SABI POMPE** SABI is a company specialized in the design and manufacture of high pressure reciprocating pumps and pumping systems, for process applications. The company's mission is to satisfy the high pressure pumping needs of customers dealing in various industrial and process sectors by offering a quality reliable product studied for each single application.
- manufacture pumps and pumping systems, even if on order basis, to supply the best technical and economic solutions suitable for each specific need of its customer.

**4. WEG MOTORS** - Operating worldwide in the electric engineering, power and automation technology areas. The company produces electric motors, generators, transformers, drives and coatings.

WEG products are present at almost every electric engineering interest area: - Generation (Generators, transformers and switchgear) - Transmission (EPC, switchgear, transformers) - Distribution (EPC, transformers) - Electric products (motors, switchgear, frequency inverters, converters, contactors, fuses, circuit breakers and servomotors, among others) - Automation (Hardware and Software) - Integration Engineering with products of different manufacturers

**5. WATT DRIVE** is specialised in products and system solutions for automation- and drive technique. Since Dec. 2011 Watt Drive is a part of the company WEG, one of the leading international manufacturers of electric motors. Watt Drive develops, produces and sells geared motors, three-phase motors and frequency inverters. With its motor- and gear system, it offers a modular combinable array of complete drive systems for production machines and industrial manufacturing plants. The Watt Drive group consists of subsidiaries in Germany, Singapore and Malaysia. Furthermore Watt Drive is represented by a close worldwide distribution- and sales network in all important industrial countries.

**6. ASCO FILTIRI** is a filtration company specialized in the design and manufacture of process filtration solution for a broad range of Industrial Markets – from Oil & Gas to Petrochemical, Water Treatment to Chemical, Food & Beverage to Cosmetics and Pharmaceutical, our innovative and proprietary process filters can be found in a multitude of filtration applications. In addition to our standard range of filtration products, our Engineering Division provides complete filtration packages to Engineering companies and end users alike, designed and manufactured according to all the main construction codes and standards (ASME VIII Div 1 & 2, PED etc...) building on the combined resources of an Engineering team with more than 40 years' experience in the field, to satisfy therequirements of the Oil & Gas and Petrochemical sectors. **ASCO Filtri** can also provide pressure vessels and systems with U-Stamp 1 & 2 and/or CE Stamp.

7. **CELADA** is a supplier of top quality machine tools. It offers more than 450 selected machines among different technological areas.

» Turning

» Milling

» Metrology

» Software

» Presses

» Grinding

» EDM & EDW

» Lapping

» Automation

**8. HOMA** –A leading global manufacturer of the Submersible pumps . For over 50 years, HOMA submersible pumps have been serving the needs of municipal and industrial wastewater customers throughout the world. HOMA submersible pumps provide superior hydraulic coverage with reliability and efficiency assured in permanent or portable installations, with Wet Pit or Dry Pit applications, from 10 GPM to over 15,000 GPM and with 1/2 HP to 650 HP.

**9. RUHRPUMPEN** is an innovative and efficient centrifugal pump technology [company](#) that offers operators of Pump systems a wide range of quality products. We are committed to worldwide excellence with a complete range of pumps to support core markets which are Oil & Gas, Chemical, Power, Industrial Applications, Water and Mining. Our broad product line complies with the most demanding quality standards and industry specifications such as API, ANSI and Hydraulic Institute Standards.
